I'm a UI/UX Designer with 7 years of experience crafting impactful and user-first digital experiences. Design, for me, is more than aesthetics—it's about solving problems, telling stories, and creating seamless interactions that leave a lasting impression. I specialise in bridging the gap between users and technology, ensuring every product is not only functional but also delightful to use.

There are three responses to a piece of design.
YES, NO, and WOW! WOW is the one I aim for.

Skill

- User Experience Design
- User Interface Design
- Usability Testing
- User Persona
- Strong Collaboration & Communication
- Wireframing & Prototyping
- Design Systems & Style Guides
- A/B Testing
- Design for Wearables & IoT Devices
- Video Editing (AE/PP)

Certification

- **Foundations of User Experience (UX) Design**
  Coursera - (2022)
- **Advance Your Skills in UX Design**
  LinkedIn - (2023)
- **Digital Skills: User Experience**
  Accenture - (2023)

Achievements

- **OutSystems Hackathon 2024 – 3rd Place**
  Conducted by Outsystems Globally

  Responsible - Designed an intuitive and user-centric UI/UX for an NGO-focused application, improving accessibility and engagement. Collaborated with a cross-functional team to develop a functional prototype, applying design thinking, wireframing, and prototyping to enhance user experience and accessibility.
- **Tech-A-Thon 2024 – 2nd Place**
  Conducted by Xebia with in Organisation

  Responsible - Developed an AI-powered User Management Application, enhancing automation and efficiency.
  Designed an intuitive UI/UX, improving user accessibility and experience. Collaborated with a team to implement AI-driven features for smarter user interactions.
- **GEM Award - 2024**
  Issued by Xebia
- **GEM Award - 2026**
  Issued by Xebia

Experience

Graphic Designer
TrueTech Solutions (1.2 Years)

2018 - 2019 Chennai, India

Key Achievements

- Successfully redesigned the bank's online loan application process, reducing approval time by 20% and increasing application completions.
- Improved the mobile banking app's onboarding process, leading to a 35% increase in customer activation rates.
- Enhanced the fund transfer and bill payment UI, reducing transaction time and improving efficiency.
- Created multiple channel Web, Mobile & Smart Watch stunning user interface across various platform.

#3 GEMS - GLOBAL EDUCATION MANAGEMENT SYSTEMS (DUBAI)

Roles - Senior UI/UX Designer | Team Size: 1 | Channel: Web, Mobile, Tablet

Job Responsibility

- Designed and enhanced web and mobile learning platforms, improving the digital experience for students, Teacher & Parents.
- Developed interactive dashboards for course management, student progress tracking, and assessments.
- Conducted user research, usability testing, and A/B testing to refine the e-learning experience.
- Created wireframes, prototypes, and UI components for live classes, discussion forums, and certification programs.
- Optimized onboarding flows to improve student and teacher engagement in online learning portals.
- Collaborated with developers and product managers to ensure smooth implementation of responsive, accessible designs.
- Integrated gamification elements such as badges, leaderboards, and progress trackers to boost user retention.

#3 GEMS - GLOBAL EDUCATION MANAGEMENT SYSTEMS (DUBAI)

Key Achievements

- Enhanced the virtual classroom UI, leading to increase in student engagement and improved interaction between instructors and learners.
- Developed a responsive design framework, ensuring a seamless learning experience across web and mobile devices.
- Designed a unified cross-platform experience, ensuring seamless transitions between web and mobile for students, teacher & parent.
- Specially created theme for kids for KG students for tablets.

#4 RIYAD BANK - (SAUDI ARABIA)

Roles - Senior UI/UX Designer | Team Size: 1 | Channel: Web, Mobile

Job Responsibility

- Designed and optimised Shariah-compliant digital banking experiences, ensuring seamless accessibility across web and mobile platforms.
- Developed bilingual (English & Arabic) UI/UX designs, considering right-to-left (RTL) interfaces for Arabic people.
- Enhanced digital KYC (Know Your Customer) and eKYC verification flows, aligning with Middle Eastern banking regulations.
- Created interactive dashboards for personal finance management, investment tracking, and Islamic banking services.
- Conducted user research and usability testing to improve digital banking adoption rates across different customer segments.
- Designed secure and user-friendly payment solutions, optimizing fund transfers, bill payments, and international remittances.
- Collaborated with developers and compliance teams to ensure UI designs align with Central Bank guidelines and security best practices.
- Implemented dark mode and accessibility features, improving usability for diverse banking customers.

Key Achievements

- Designed intuitive mobile-first experiences, catering to the high mobile banking adoption in the GCC region.
- Integrated biometric authentication (Face ID, fingerprint) for secure and frictionless login experiences.
- Enhanced digital wallet and contactless payment UI, supporting Apple Pay, Google Pay, and local wallets.
- Optimised Islamic banking services UI, ensuring compliance with Shariah principles and financial guidelines.
- Developed a localised UI with dynamic content adaptation, improving engagement for Arabic and English users.
- Designed Multiple theme interface based on the festival.

#5 DAY & ZIMMERMANN - (UNITED STATE)

Roles - Senior UI/UX Designer | Team Size: 1 | Channel:Mobile

Job Responsibility

- Designed and developed a user-friendly job search and internal mobility platform, enabling employees to explore career opportunities.
- Conducted user research, surveys, and interviews to understand employee job-seeking behaviour and optimise the application process.
- Created intuitive dashboards for job postings, application tracking, and recruitment analytics.
- Developed interactive wireframes and high-fidelity prototypes to streamline job matching and employee career progression.
- Designed a personalized recommendation system UI, helping employees discover relevant job openings based on their skills and experience.
- Collaborated with HR, recruiters, and IT teams to ensure a seamless experience for both applicants and hiring managers.
- Implemented filtering and sorting features, making job searches more efficient based on department, skills, and location.
- Ensured accessibility compliance and mobile responsiveness, improving usability across devices.

Key Achievements

- Redesigned the internal job portal UI, improving navigation and increasing employee engagement.
- Enhanced the job application process, reducing the time required to apply for internal positions.
- Developed an AI-powered career path visualization, helping employees plan their career growth within the organization.
- Optimized recruiter dashboards, improving job posting and candidate review workflows.
